**Ocean Explorer Maps : Mediterranean Explorer (Ocean Explorer Maps)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mediterranean Explorer (Ocean Explorer Maps):

8 of 8 people found the following review helpful. Mapping the MedBy Robert N. JenkinsPassengers preparing for a small-ship cruise to visit the remnants of ancient civilizations find this map was on the suggested reading list. I found the map to be broader in scope than I needed for this set of shore excursions, but its snippets of history about various sites and cities, in alphabetical order by present-day country, was of some help. However, before buying this to plan your own voyages to antiquity, it would be better to invest in good histories and guidebooks, more focused on smaller regions.4 of 4 people found the following review helpful. excellent planning mapBy art 87great overview of the entire Mediterranean Sea coastal countries, well-illustrated with small photos notes. this is not a road map, but that's not the purpose here. features many major sites enough history to be informative. (if u r a map purist, u might find the little photos scattered across the map distracting).1 of 1 people found the following review helpful. Good MapBy MJMorrisThis is an excellent map of the area, however I thought it was greatly over-priced. I am sure there are other maps available which would not be as expensive.

Illustrated visitor's map of the Mediterranean including the Black Sea. Scale 1:4,700,000. Includes enlargements of the Adriatic and Aegean Seas (scale 1:2,750,000). Features Gazetteer with brief descriptions of 240 of the region's cities, towns, visitor attractions and archaeological sites. Historical time line from 2550 BC to AD 1974. Pantheon of the Gods of Olympus, with their responsibilities.

About the AuthorOcean Explorer is best-known for its wildly popular Galapagos Island visitor's map. Their maps are richly detailed guide-maps, each with illustrated biographies of notable historical figures, historical timelines, beautiful color photos and information on local wildlife, landscape and indigenous peoples.
