My parents insisted on a paper copy despite having GPS in the car and three iPhones. We didn't end up using it much, which I expected. It was nice to have to look at on the airplane to see what cities and towns were along our route.5 of 5 people found the following review helpful. helpfulBy HMIIt was great to have this map with the details. It is a little tricky with the names being in the native language, but it's actually a good thing since that's how you see the names on the street signs, etc. while you're there.1 of 1 people found the following review helpful. but it was better than GPS for highway drivingBy envirochickThis map took us through Germany, the

Netherlands and Belgium. We did need supplemental maps for cities, but it was better than GPS for highway driving.
