1 of 1 people found the following review helpful. if only highway numbers were marked as well as mileageBy DeenaWhile this book of maps was generally helpful as we navigated through Germany, it was a constant cause of

frustration that route numbers were difficult to find. pages were filled with mileage numbers, so we could figure out easily how far things were, but in moments when speed of locating something mattered, it was frustrating to have to search and search for route numbers of even some of the largest roads. The separate map in the front which showed only major highways was consulted often.0 of 0 people found the following review helpful. Very usefulBy Brazilian TouristLike all Michelin Guides, this one is very useful to the foreign driver. Sometimes the GPS fails (it has already happened to me twice!), and, if you don't want to waste lots of your precious time trying to find the right way... always have a Michelin Guide close to you! It saves time, money and lots of stress.0 of 0 people found the following review helpful. MICHELIN GERMANY MAP/ATLAS BOOKBy VeronicaTHIS MICHELIN GERMANY MAP/ATLAS WAS EXCELLENT. WE USED IT THROUGH SOUTHERN GERMANY IN CONJUNCTION WITH LOCAL MAPS WITH NO PROBLEMS GETTING AROUND. VERY USEFUL RESOURCE!
