CA Michelin Travel Lifestyle : Michelin Green Guide Austria (Green Guide/Michelin) before purchasing it in order to gage whether or not it would be worth my time, and all praised Michelin Green Guide Austria (Green Guide/Michelin):

Excellent But Somewhat DatedBy Ken ClarkThe book is generally very good, but remember it, like the US auto club tour books, is geared toward the motorist. There is precious little information about rail travel, etc., except for getting around Vienna. Unfortunately it was just published before the Euro became Austria's only currency and all prices, etc. are still denominated in Schillings. The index could also be more comprehensive. Otherwise the book is excellent, and very detailed and I recommend it.41 of 43 people found the following review helpful. Michelin slipped up with this oneBy Nancy S.We have been fans of Michelin's Green Guide series for thirty years, but have become increasingly disappointed with the sloppy proof reading in the last four revised guides we have purchased. I had high hopes for this 2007 revision of the Austria guide, because our 2001 edition still had prices listed in schillings. Austria adopted the Euro in 1999, and so I assumed that this version would be fully updated. But NO! The lodging and eating out sections for Vienna still list all the prices in shillings! Who even knows what "Single room from 1 300S.", means!?! And note the lack of a comma in "1 300S", so you're not entirely sure whether the 1 is their shorthand for "single", or whether it is 1,300 shillings -- whatever THAT equals. Then there are the places that appear to have been cut and pasted from another source. For example, there is an almost full-page text box of the Hapsburg family tree. The editors have forgotten that people buy this edition for its text in English, because the box is entitled, "Stammbaum des Herrscherhauses Hapsburg". Maybe a family tree is self explanatory, and maybe readers can figure out that the "Ludwig XVI" who is married to Marie Antoinette is known to English speakers as Louis XVI. But it is just sloppy editing. I won't dwell on the many sentences that have missing words because I want to get to one of the most vexing features, and that is the insufficient indexing. Many readers are familiar with Michelin's 3-, 2- and 1-star system of rating principal sights. Three star sites are highly recommended, two star are recommended and one star sites are interesting. But many of the two-star sites -- and even a three-star site (Wilhering) -- do not even appear in the index or in the alphabetically-arranged main text!! How is one to decide whether to visit sites that this guide ostensibly recommends by awarding them two stars if neither the index nor the alphabetically-arranged main text can get you to a description of these places!?! Examples are Staatz, Stams, Hohe Mut, Jochdohle, Hafelekar, and Grosser Ahornboden. When the answer is to look in another guide it is time to toss this one. As Americans living in Vienna we use a lot of travel guides. Of the nine we have for Vienna and Austria, I like "Best Drives Austria - ISBN 0749539240" for its clearly-depicted circuit drives; a book published here in Vienna and not available on - "Only in Vienna - by Duncan J.D. Smith" for its descriptions of unique sights in Vienna -- like the Turkish cannonballs embedded in Stephansdom; and the Eyewitness Travel Guides for Vienna and for Austria, for their maps, indexing (15-18 pages, 3-columns across and small font, as opposed to this Michelin guide's 7 pages, 2 columns, regular font) and recommended places to stay and eat.0 of 0 people found the following review helpful. There is no pride of ownership on behalf of Michelin ...By Emanuel BeerThere is no pride of ownership on behalf of Michelin. Errors left and right; No one is checking the text anymore. This used to be THE guide. What a shame.

From Viennese coffee houses to the Renaissance castle of Schloss Greillenstein, the newly revised Green Guide Austria helps you plan and explore this diverse country. Try winter skiing at pretty Lech or summer hiking at glacial Hohe Tauern National Park. Shop at Innsbruck's Christkindlmarkte, or explore gothic Gurk Cathedral. With its dedicated address book to help locate the best places to eat and stay, as well as plenty of illustrations, maps and color photos, the guide ensures you make the most of your trip. Use with Michelin Austria Map No. 730.
