Michelin : Michelin Green Guide Brittany (Green Guide/Michelin) before purchasing it in order to gage whether or not it would be worth my time, and all praised Michelin Green Guide Brittany (Green Guide/Michelin):

3 of 3 people found the following review helpful. An excellent guide to BrittanyBy Annie WelchThis guide is a compact, well set out handbook for anyone who has not visited this region before. The layout of clear regional headings at the top of each page, many maps incorporated into the text and clear sub-headings make it easy to use. I also like the cover as it is made of an unmasking kind of material and the 'dust jacket' style means that you can easily hold reference to the place one is currently visiting and refer back. I'm glad my daughter recommended this series to me as I hadn't used them before2 of 2 people found the following review helpful. Another fine example ...By Dennis BowenAnother example of the fine job Michelin does in presentation of the necessary information, but without the glossy photos of a DK guide (I bought that one, too). I also purchased the Michelin Brittany map. Note: Since mine are research trips for future novels, I tend to overdue the pre-journey intel gathering. db0 of 0 people found the following review helpful. Five StarsBy Wiley LewisA lot of current information
