Ideal for my study abroad in LondonBy msceI'm studying abroad in London and this item was recommended to me by a colleague;I'm glad he did! I'm more of an artsy-museum type person and this book gave me the summary I needed about some of the places to visit.I was worried the book wouldn't arrive on time before I left for London because the approximate shipping date stated September 15 (the day after my departure flight), however, I received it about 4 days after I placed my order-- just in time! Thank you!
