Big Picture By Great Faulkner's Ghost This was very helpful on our recent trip to Turin and the greater Piedmont area of NW Italy (Asti, Alba, Genoa, etc). Of course, we used our GPS as the prime directive, but it was useful to have this along to get the "big picture" when driving between cities and widely separated sites. There is a limit to how detailed any map of this scale can be when you drill down to small towns and villages, but Michelin does show excellent judgment in terms of what to include on the map, such as landmarks and important roads that keep you oriented. Definitely I recommend this as a supplement to the GPS. 0 of 0 people found the following review helpful.
