Michelin : Michelin Italy: South Map 564 (Maps/Regional (Michelin)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Michelin Italy: South Map 564 (Maps/Regional (Michelin)):

10 of 10 people found the following review helpful. Michelin Map of ItalyBy rrinlaMichelin maps, don't leave home without one if you're traveling in Europe. Even if you are a GPS fan, there is nothing like a good, reliable backup, and Michelin is the best. Great detail plus accurate information on scenic routes and interesting attractions. Only downside is opening your map inside the European size rental cars :-)

2 of 2 people found the following review helpful. Good level of detail and included the small village I was visitingBy mntonyI was driving in the Puglia region of Italy, in the hills away from bigger cities, and this map was very helpful even though I had a GPS map on my phone. Nothing works like a physical map you can spread out and examine.

7 of 7 people found the following review helpful. accurateBy DaveWe found this map to be accurate. Used it to drive from Rome to Sorrento via Naples. Exciting drive, highly recommended. Definitely you want a map because the road signage is a little spotty.

Michelin regional maps each contain practical road and route information. Special Michelin reads-like-a-book format for easy use in folding and unfolding. Useful information for planning trips, including gas stations, 24-hour service stations, toll gates, rest areas and service plazas. Clear, precise cartography. Icons pinpoint important travel information.
