Great for planning in Central London but....By Kitty @ Vicarious BookwormThis map was great for planning before I went but once I arrived in London I realized that many areas of London, including the one where I was staying, is not included. The one part I actually ended up using quite a lot is the tube map on the back, which was quite helpful and the only reason I scored this product a 3. If you're planning to visit zones 4-8, plan to use another map (either with this one or on its own).0 of 0 people found the following review helpful. Great asset!By hjfhfxjldgchcThis map was such a helpful tool when in London. It shows most of tourist London. The wipe on/wipe off feature of the laminating made planning days very easy. Using dry erase markers to plan each day helped us get to each site with ease. I definitely will take this map with me every time I travel to London!0 of 0 people found the following review helpful. Nice trip planning took!By Jane DoeGreat for planning our stay in London. I located the sites we want to see in dry erase marker to plan the most efficient use of our time. I can wipe off changes in itinerary and what we have already seen.

NEW. The Michelin London City Map – part of Michelin’s brand-new Laminated City Map series – is ideal for visitors wanting to see the sights and navigate around the city. Points of interest drawn from Michelin Green Guides are described and highlighted on the map for easy sight-seeing. Planned routes and stops can be marked, then wiped off the laminated surface\* while the map’s accordion-fold pattern allows for a fast look and even faster refold. Rely on Michelin’s clear mapping and street index for an enjoyable visit.\* Use only dry-erase markers.
