By Sarah Hurst  
When people talk about visiting the Loire Valley, generally they mean the area that includes Blois, Orleans, chateaux and the like. That area is not included in this map, though how would you know when buying online? I'm so disappointed that I got a map I don't need. It is completely useless for me. And now I am out the money.

By threejdad  
I ordered this map as we were driving from Paris to the chateaux of the Loire valley two weeks ago. This is the only choice that comes up when you search for Loire valley Michelin road maps on . Unfortunately, none of the area surrounding the towns of amboise and tours, where all the castles are located, is included on this map! I unfortunately did not discover this until my family and I were on the road in our rental car . So it is completely unused.

By Michael Messina  
This map covers to just a bit east of Tours. Many castles and chateaus are not included on the map. Much of the Loire Valley is not on this map.
