Michelin Travel Publications : Michelin Map: Grand Lille (Michelin Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Michelin Map: Grand Lille (Michelin Maps):

0 of 0 people found the following review helpful. Regional map not City map By Customer Do the French have simple city maps? Lille is considered a major city, but the huge several feet by several feet map I received had a tiny little insert for the city of Lille. It was basically a regional map. All I wanted was a large, precise city map of Lille with all streets labeled. Maybe it was my mistake in thinking it was a city map, like Cleveland, Baltimore, etc. Perhaps I did not understand what Grand Lille meant. The same disappointment for the other map as well (Institute Geographique National). I bought 2 different maps, thinking at least one would be an ordinary city map. I was wrong. My review is the same for both maps.

A map of the Grand Lille area, covering Lille, Roubaix, Tourcoing, Ypres, Tournai and Coutraï at a scale of 1:50,000. An index of place-names is included.
