WalfishI was hoping for a large scale map that would help me find the route of, and identify interesting points along the rivers our upcoming tour of the Benelux river country. Alas, it focuses, as it probably should, on motoring, not canal and river tours. Lots of detail, but the mapped focus locations provided appear not detailed enough. There are better focus maps for the stopping points in most guide books I've consulting. 0 of 0 people found the following review helpful. Michelin Map NetherlandsBy Gail W. FordGreat map! 0 of 0 people found the following review helpful. Not GreatBy C. L. WilsonAs a guide in actual driving, this is way, way too detailed to follow with anything like confidence.
