This was perfect for us since we fly into Budapest before driving into Croatia. There isn't quite as much detail as I have seen on some maps but for me the broader area view works well. It's easy to see how to get from city to city and all our expected travel on one map. Be aware that there are no city inserts that you find on some maps so if you need that you'll have to find that detail another way.1 of 1 people found the following review helpful. Michelin Maps are the best.By BSMT ASCPMichelin Maps are very good with symbols and details in all the languages spoken in the regions covered by the map. We always used Michelin guides and maps when we lived in Europe.1 of 1 people found the following review helpful. Five StarsBy rodradAn excellent map, very recommended.
