**Michelin : Michelin Poland Map 720 (Maps/Country (Michelin))** before purchasing it in order to gage whether or not it would be worth my time, and all praised Michelin Poland Map 720 (Maps/Country (Michelin)):

0 of 0 people found the following review helpful. Not as durable as older Michelin mapsBy Sailor7Nice complete map. It is not as durable as previous Michelin maps. It has a small hole in it at a crease.2 of 2 people found the following review helpful. Great Map.By Brian Lange.In the days of smart phones and GPS, paper maps have become mostly obsolete. I liked this map mostly for the fact I can route my entire trip on physical paper and see the distances I am travelling.This was useful in that it showed major roads and even continues the roads into neighboring countries, which show a fair amount of land respectively. What was unfortunate is that I got it out once during the trip to see if I could find my way to a location in Warsaw, but it doesn't show enough details of the cities. It'll do you good if you're going long distances, but not really useful if you're going just around a city or staying nearby.As I said before, electronic devices now replace these prehistoric paper tools.0 of 0 people found the following review helpful. Five StarsBy CustomerGiven as a gift for someone who needed a map of Poland. She likes it.

Renowned for over 100 years for their clear, accurate and easy-to-read mapping, Michelin country maps give travelers an overall picture of their route, with practical road and travel information; and city maps containing extensive street indexes orient them quickly so they can find their way to their destination.
