Northern Map No. 442 (Michelin Maps Atlases):

0 of 1 people found the following review helpful. a map By Tomas the Wiseso. it was a map, It covered the area
advertised. It had ben used by someone else. BUT, It was advertised as available in pounds sterling, but I was charged
in USD. HUMPH10 of 10 people found the following review helpful. Its a very useful, detailed map By
tkryst@yahoo.com This map has excellent detail, covering all the terrain from south of Madrid to the northern coast,
and from Salamanca in the west to Zaragoza in the east. Includes even little-used country roads. Also has a 7" inset of
Madrid and city/road index. But it is missing features we expect in US maps: double-sided printing, more city insets.

An annually updated road map of Northern Spain, covering the main and secondary road networks across the region.
