From Michelin Travel Pubns : Michelin THE GREEN GUIDE Florence et la Toscane, 2e before purchasing it in order to gage whether or not it would be worth my time, and all praised Michelin THE GREEN GUIDE Florence et la Toscane, 2e:

2 of 2 people found the following review helpful. A recommended guideBy A CustomerThis is a good example of the Michelin Green Guide style: concise yet comprehensive, very well illustrated, and decidedly didactic in the French style, a feature particularly obvious in the historical background sections. This is the original French version; the English version is practically identical, but contains more asides of interest to English-speaking (particularly British) readers. As a matter of personal taste, I'll quibble with two features of the the Michelin style, which might even be seen as assets by other readers. Apart from assigning the hallowed Michelin stars, the author(s) of the guide do not usually express an opinion about the sights described; they are somewhat distantly descriptive rather than enthusiastically committed. Also, the sights are arranged alphabetically rather than geographically; this is not how the usual visitor travels, and is not too helpful to plan an itinerary.A note on the rating: As one can guess from my comments, this is, in my opinion, a very good, but not a superb, guide. Why the five stars? Just because a previous reviewer assigned it the lowest possible rating of a single star. The reason for this scathing review was merely that the guide was written in French (!), which the reviewer assumed to be Italian (!), and was thus incomprehensible for him or her. While I am all in favor of freedom of expression, this seems an extremely unfair approach. I cannot read "The Odyssey" in Greek, but I am not about to pan the Greek original. I am therefore selecting a number that will raise the average close to what I believe my actual rating really is: about four stars.5 of 13 people found the following review helpful. I couldn't read it since it was in ITALIAN!By A CustomerThese Michelin Green Guides are usually great, but this one is in Italian. Since I can't read Italian it was useless.

A tourist guide in French for the Florence Tuscany regions of Italy.
