A volume from a time when Michelin concentrated on art and history, and did not clutter with housing and meals. (We do have a recent Spain Michelin, just in case.) But this is the one that gets stuck in the suitcase. Price was great. Looked new, but old. (excellent condition). Shipped rapidly. All could not be better.1 of 4 people found the following review helpful. Very enjoyable tour guide...By Adi AdlerI've only visited Madrid, so I'll focus my comments on that part of the book. The explanations are short and to the point but manage to cover up all the major sight seeing. The restaurant recommendations are especially good, and in a country where you don't speak the language, and they don't speak yours, it's nice to find a place that has authentic local food on one hand and an English menu on the other...

Used, Good Condition, Clean, Kept in a Smoke Free Environment.
