2 of 2 people found the following review helpful. not up to the michelin qualityBy Hobiz2I have many michelin books and this one is so bad that it shouldn't even be in the line-up. The depth and quality of info is poor throughout. The walking tours are only on the map, and not described- the maps are in spanish to boot.I would return this in a minute, but had already marked it up a bit.Do not make the same mistake. Rick Steves, Fodors much much better.It only rates 1 star. thru another in for good luck??0 of 0 people found the following review helpful. Michelin guides are just the best, I loved themBy Ch. P.Michelin guides are just the best, I loved them. I used this one on a recent trip to Spain and it was excellent to help me decide the places we wanted to stop and visit along the road.0 of 0 people found the following review helpful.
