Author : Milan: In Flight Over the City and Lombardy (Italy from Above) before purchasing it in order to gage whether or not it would be worth my time, and all praised Milan: In Flight Over the City and Lombardy (Italy from Above):

0 of 0 people found the following review helpful. Often overlooked, Milan is beautiful!By Andre ParadisIf you've been to this amazing city, you may find yourself taken with it all over again from the impossible perspectives in this lovely book. If you've never seen Milan, this book may be a great introduction. I've visited this vibrant Italian metropolis several times -- including trips to the Lakes and other beauties of Lombardy. You've got to see the Certosa di Pavia--from any perspective it's a wonder. Lombardy is full of wonders.But Italians built their beautiful cities from the ground up, so a lot of the subtlety of the buildings and of the life in the street is necessarily flown by in this overview, so to speak. So do have a great time with this book and supplement it with another, one that takes you close up to the almost floating filigreed cathedral, the stunning elegance of the Galleria, the beauty of La Scala and the rest of Milan's treasures. (And don't miss a visit to the Cimeterio Monumentale -- you will never forget it.)
