Edward Staiger : Milan Walks and Guides before purchasing it in order to gauge whether or not it would be worth my time, and all praised Milan Walks and Guides:

0 of 0 people found the following review helpful. Planning to visit Milan? By M. Richter Great guide! Well written and easy to understand and follow! 0 of 0 people found the following review helpful. the beauty of Italy By Andrea Maggipinto The book offers a different and amazing way to discover the beauty of Italy. A nice view of Milan, my beloved City. Andrea

One of the miracles of Milan is how physically accessible it can be. One can easily depend on its network of public transportation (the most extensive and reliable in Italy), but as this book proves - in Milan, one can walk. In walking, one can peruse, one can enter into the city as into a complete five-senses experience. This book is divided into four separate walking tours of the city, easily traversed on foot. The distance required by the mind just isn't possible in a quick (or desperate) getaway weekend; Milan's window-shopping alone - the best that Italy can offer - could take a week or a month. Its history took about two millennia. The sights and splendours of its many museums and churches can actually shock as they come to the tourist as so unexpected, literally, so unheard of. It's finally time to discover Milan.
