Although I intended them as a way to keep my daughter engaged, my whole family ended up loving these books. My daughter noticed paintings and sculptures that were in the book and then we would read about what we were looking at. I hope that the author continues to make more books on different cities around the world and the US so that I can continue to buy them for my family!0 of 0 people found the following review helpful. Here’s what Amazon customers have to say about other books in the Scavenger Hunt Adventure™ series: “This book was flat out fantastic. We took a family trip with two adults and one seven year old. I was worried that he would be bored looking at the museums and sights. This book made a huge, huge difference.” –Chinagrl “This book helped make our trip...with 6th graders fun and fulfilling. We weren't sure how our kids would take to going to all the museums and landmarks...but this book had us visiting many sites more than once. They were so excited to find each item in the book.” –CC in SF “Great for teenagers! I love these books! My kids are 12, 14 and 16 so I was afraid they might think they were "baby" books, but they are enjoying them.” -Marilyn Thomas
