**Eileen Gardiner, Cesare d'Engenio Caracciolo, Enrico Bacco : Naples: An Early Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Naples: An Early Guide:

The city and its environs c. 1600, its topography and plan, monuments, institutions, churches, monasteries, palaces, and fortresses; with discussions of the city's history, listings of church and secular officials, noble families, local saints and cult centers from late antiquity through the sixteenth century. Illustrated with maps, paintings, engravings, and drawings of the period, including the Tavola Strozzi. Introductions, bibliography, complete index, notes, and five new maps.

"...written in a lively and colloquial style that reflects not only the period in which it was written but captures a Naples that is no longer obvious to the often hurried twentieth-century tourist. Still useful to modern travelers." -- *L'Italo-Americano*, July 16, 1992 "A fine and fitting homage to one of the most famous capitals of Europe. Masterfully translated." -- *America Oggi*, June 23, 1991

From the Publisher  
Combining the Renaissance descriptio with the richness of the Baroque, this book is an indispensable resource for the social, economic, church and art historian, as well as a remarkable early guide for the student of, and visitor to, this major artistic and political capital. Historical and art historical introductions place the city, its history and growth, its institutions and monuments into context.
