Domenico and Giordano, Carlo Rea : Naples and Pompeii (Everyman Guides) before purchasing it in order to
gauge whether or not it would be worth my time, and all praised Naples and Pompeii (Everyman Guides):

1) The encyclopedia. Chapters on nature, history, language, architecture, arts and traditions...2) The itineraries. Each of them begins with a map of the area to be explored. The 'must-see' sites are highlighted in grey boxes in the margins. 3) The practical. Things you need to know before you go and while you're there. Restaurants, hotels, bars. Comprehensive listings of the museums, monuments, palaces, with opening times. Recommended reading. Index. Plus a map section.
