I needed a guide to Pompeii; title misleadingBy Watercolor ProfI am a fan of the DK Eyewitness books and this was a great find, with a good map of Naples. But the title is misleading. We will only be in Pompeii for a day, and then return to Rome. The title, Naples and Pompeii, led me to believe that there would be an extensive overview of the ruins. Instead Pompeii was covered on 2 scant pages in this tiny pocket guide. Only the highlights were discussed. I returned the book. Had we been staying in Naples, it would have been invaluable. It didn't suit my needs, but Eyewitness travel books are the best for the serious traveler.1 of 1 people found the following review helpful. this is only the map of Naples, no PompeiiBy mariekeI ordered this pocket map because of a school visit to Pompeii but there was only a very detailed map of Naples and no map of Pompeii inside of this item!
