I traveled to Naples in August 2007, staying just off the Spaccanapoli. Using this as a starting point, I traveled down to Pompeii and Vesuvius and finally on to Sorrento (the most beautiful of all my stops, by far!) The DK guide kept things straight in my mind and recommended some very interesting sites (such as the shopping lanes in Sorrento and details of the Naples Cathedral) that I might have missed otherwise. Food and entertainment suggestions were also right on. It's a small guide, but packs a lot in. I found it to be very useful for my stay in this area of Italy. Highly recommended. One last thing: when you're planning your stay in the region, at least investigate the possibility of making your home base in Sorrento or one of the Amalfi towns. Naples might appeal to some, but I found the city a bit too chaotic and dirty. There's a homey, inviting feel to some areas. But I still believe that travelers would do better in the smaller towns. If you'd like to see the Naples Archaeological Museum, Galleria Umberto, or other site in the city, think about making it a day trip or two into Naples. The Circumvesuviana line runs from Sorrento to Naples and is only about 10 euro. If you're the type that appreciates a quiet, casual atmosphere, you'll be much happier along the coast in my opinion.

This book, with its maps and accompanying photos was very useful on my recent journey to Naples. The Eyewitness guides tend to be by far the best for the countries and regions that they cover.

I am not a fan of the "Eyewitness Travel Guides", but the presentation is concise and direct. They lack lots of essential details and tips that the Rick Steves' guides provide, but Rick did not have a Naples book at the time.
