One of the three best maps of Rome.By Douglas H. HadenThis is one of the three best maps of Rome. Recently (through fall 2001), I bought just about every map of Rome I could find. The best three maps are Rome [called by .com Rome: FlexiMap (Insight Map Series)], Rome City Map [called Eyewitness Travel City Map to Rome], and Rome, Destination Map [called National Geographic Rome]. Based on content, usability, accuracy, and durability, Insight's FlexiMap is best, with the other two close behind and tied for second and third best. The maps are about the same price.
