Constantin Brancusi, myths, mining, fauna, healing waters, Romanian art, gypsies, winemaking). It features a guided walk of old Bucharest, a few driving tours across the countryside (Muntenia, Oltenia, Transylvania, Banat, Maramures and Moldavia) and boat tour of the Danube Delta. I'm giving it 4 stars because the only city map featured is that of Bucharest. It includes some logistics details and lodging/dining options, but I always check the Internet for the latest news about that. All in all, a great guidebook. 1 of 1 people found the following review helpful. best tour guide for the country By stellabest tour guide for the country. Read it carefully before going and decide by what you read what to visit and what to leave for another visit. Read the travelwize part where it reminds you of the fact that even short distances will kill a lot of hours due to the roads. Use the book and you will be rewarded. 0 of 0 people found the following review helpful. When in Romania.... By WACO Every proud Romanian should have this on their coffee table. Has soooooo many interesting facts and tidbits about Romania and great pictures! Very easy to read.

With its historic cities, rolling mountains, villages, and rejuvenating spas, Romania is realizing its appeal as a travel destination. National Geographic's all-new Traveler guide explores every region of this intriguing country, from Bucharest to Oltenia and its painted monasteries to the Apuseni Mountains, celebrated for their limestone formations and underground rivers, to Transylvania's medieval towns. Each guidebook in this series details how to get around and what not to miss... the most gracious hotels and recommended restaurants... the best spots for festivals, wildlife watching, water sports, and more—all presented with the reliable reporting and magnificent photos and maps that are the hallmarks of National Geographic.

About the Author Caroline Juler is a writer and an artist. She first visited Romania in 1993 on the trail of a performance art festival in the Carpathian Mountains.
