Division of the book by City areas made it very user friendly. I could see what areas of the City interested me and then concentrate on what is of interest in those particular regions. I think that we

explored London much more thoroughly and efficiently than we would have been able to without this guide- especially in the three short days we had. The book is also well cross-referenced so that if you have particular interests (such as shopping or museums, etc.), you can see where in the City those can be found. Lots of colorful pictures too.
