John Lawson, RCC Pilotage Foundation : North Brittany: Cherbourg to Ouessant and the Channel Islands (Chart) before purchasing it in order to gauge whether or not it would be worth my time, and all praised North Brittany: Cherbourg to Ouessant and the Channel Islands (Chart):

The new edition of the RCC Pilotage Foundation's pilot for North Brittany - Cherbourg to Ouessant and the Channel

Islands - has been fully revised and brought completely up to date to maintain its place as the best-known companion for that coast. The text and plans have been redeveloped so that the sailing directions now make full use of recommended waypoints. New index charts have been introduced to improve cross-referencing and throughout there are new sea level and aerial photos. The Royal Cruising Club Pilot Foundation's North Brittany has a long and distinguished pedigree that dates back over 40 years. During that time it has always been regarded as the definitive pilot for yachts negotiating the scattered rocks and difficult tides of the Brittany coast. This new edition builds on the popular format of the previous editions and includes all the latest information to bring it completely up-to-date.

Captain John Lawson had a long career in the Royal Navy, followed by years as the skipper of a sail training vessel and a lifetime of sailing his own boat, gave him great practical knowledge. His contribution matched his enthusiasm and was considerable. It included authorship of South Biscay, North Brittany and the Channel Islands, and revision of The Atlantic Crossing Guide. Contents: Introduction; 1. Cherbourg to Cancale; 2. The Channel Islands; 3. St Malo to Lezardrieux/Pontrieux; Treguier to Ile d'Ouessant and an Appendix.

About the AuthorThe RCC Pilotage Foundation was incorporated as a company limited by guarantee in 2005 and is a registered charity. It is run by volunteer members of the RCC. The Foundation publishes pilotage information through books and a range of media accessible via its own website RCCpf.org.uk Creation of new RCC Pilotage Foundation publications and updates to existing publications are only made possible through the supply of information from around the world by generous-minded yachtsmen and women, and the dedicated work of authors and editors.
