Andy Symington : Northern Spain Handbook, 4th: Travel guide to Northern Spain (Footprint Northern Spain Handbook) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Northern Spain Handbook, 4th: Travel guide to Northern Spain (Footprint Northern Spain Handbook):

15 of 16 people found the following review helpful. They did it again! By Pablo Martin Podhorzer Well, I'm again here recommending a Footprint book. I took two weeks off and travelled from San Sebastian to Vigo, and from there to Portugal (where I used a Michelin for a three day stay). If you have more than a week, Footprint is the way to go (and read the guide BEFORE travel, like always). It's a great thing that they decided to write these sector guides (about only a part of a country) because it allows you to take in some areas without feeling that you paid for something that you will not use. Also, it represents better the way I do tourism. The cheap hotel (pensions) recommendations were incredibly accurate (and I saved a lot of euros without losing quality). One line even mentioned a dog pertaining to a hostel owner, and since the dog passed away last year the owner wanted to see the guide to remember him and was happy to see that his dog will always be in a printed page! (that was in Oviedo). Continue with the good job people.

Travelers can escape from the crowds and discover one of Europe's less-traveled regions with Footprint's fourth edition to Northern Spain. Whether one wants to admire Gothic architecture, sip wine in the Rioja, surf the Basque coast, or pace the pilgrim road to Santiago, this guide covers it all. It includes fascinating insights into the celebrated cultural differences from the booming Basque country to the green hills of Galicia, plus all the necessary information on where to eat, sleep, and drink, and how to get around.

About the Author Andy Symington, a native of Australia now residing in Spain, has authored a number of Footprint titles, including Seville and previous editions of Northern Spain.
