Lonely Planet : Not For Parents Europe: Everything You Ever Wanted to Know (Lonely Planet Kids) before purchasing it in order to gage whether or not it would be worth my time, and all praised Not For Parents Europe: Everything You Ever Wanted to Know (Lonely Planet Kids):

A waste of moneyBy Chris KostovI bought this book for my little daughter, hoping that she can learn a lot of curious facts about Europe, presented in a more entertaining style. I was shocked when I read on p. 7 that Istanbul is the capital of Turkey. Are you kidding me?! Lonely Planet allows the printing of geographic misinformation. The capital of the Ottoman Empire was Istanbul but the capital of modern Turkey is definitely Ankara. How can you expect from the children to know the capitals of various countries, when you print books with such mistakes?! Check out the facts, before writing books!Don't waste your money on this

book.3 of 3 people found the following review helpful. Not worth itBy E. ThompsonThis book is ok. It has some interesting and weird facts about things all over Europe. My son read a few pages but it definitely didn't capture his attention like I had hoped it would. It also gives weird facts on things you probably won't ever see or do. I was hoping it would point out some things that we could actually do and see so my son could learn about in a way that interests him. Unfortunately that isn't the case with this book.6 of 6 people found the following review helpful. I like the city guides and kept those (Paris and NY)By Mc123I felt this was too gory for my kids 6 and 8. I like the city guides and kept those (Paris and NY). But this Europe one has a double page on torture techniques (on Vlad the Bad) and a photo of a eurovision band with realistic looking severed heads and limbs. Just really wrong for their age.

Lonely Planet: The world's leading travel guide publisher* This is not a guidebook. And it's definitely 'not-for-parents'. It is the real inside story about one of the world's most colorful continents - Europe. In this book you'll read about bizarre pastimes from wok racing and mobile phone hurling to grown-up food fights and rotten shark chomping. You'll learn the gruesome facts about some of history's most bloodthirsty rulers and can check out sculptures made of human bones, the world's biggest pizza, ultracool ice hotels, and a metal-munching Frenchman. This book shows you a Europe your parents probably don't even know about. Authors: Written and researched by Lonely Planet, Clive Gifford About Lonely Planet: Started in 1973, Lonely Planet has become the world's leading travel guide publisher with guidebooks to every destination on the planet, as well as an award-winning website, a suite of mobile and digital travel products, children's books, and a dedicated traveller community.
