My son (9) read on a recent trip to Italy and we made him read it before we went. He was happy to read it and it was a fun item of interest on the planes and waiting along the way. As we saw the sights, he had all sorts of interesting facts and tidbits to share with us. The adults on the trip enjoyed reading it too - not a boring guidebook, just fun facts about the sites we were visiting. Good quality - love the way the book jacket can acts as bookmarks as well. Not maps or guides/prices, etc. for adults, but interesting information to help understand and appreciate the travel more! And of course, silly and gross things to interest children.1 of 1 people found the following

review helpful. Don't leave home without it!By John N. WallaceMy 7 1/2 year old granddaughter came to Roma with my wife and I, along with this book. We are home now 6 weeks and she is still showing people all the places we went. I will never take her anywhere again without a "Not For Parents....." book for that city or country if I can help it. Well written and very informative for children (and grandparents!).0 of 0 people found the following review helpful. 10 year old like itBy plum9195Bought for my 10 year old before our visit to Rome. She liked it and found it easy to understand. Was also interesting for adults.

Lonely Planet: The world's leading travel guide publisher\*This is not a guidebook. And it is definitely 'not-for-parents'. It is the real, inside story about one of the world's most famous cities - Rome. If you were a cat why would you want to live in Rome? Would you want to go to the bathroom with dozens of other people? Can you imagine eating a flamingo's tongue for lunch? Why do they fire a cannon every day in Rome? This book shows you a Rome your parents probably don't even know about.Authors: Written and researched by Lonely Planet, Klay LamprellAbout Lonely Planet: Started in 1973, Lonely Planet has become the world's leading travel guide publisher with guidebooks to every destination on the planet, as well as an award-winning website, a suite of mobile and digital travel products, children's books, and a dedicated traveller community.
