Skip this book and buy the Rick Steves guidebook instead.By AlexisOK little book, but did not contribute much to helping me plan my 10 day London trip. Skip this book and go straight for the far superior Rick Steves London guidebook. It offers loads of helpful advice and tips to make your trip a breeze. This NFT book offers only brief overviews of various sites and pages of map segments with labels. Lacks the detail required to help a first-timer plan a successful trip.0 of 0 people found the following review helpful. Great to carry with you when traveling.By Traci PanizziI have one for Chicago too, and I've always loved it, so decided to get

one for a trip to London. It's been so helpful for planning the trip.1 of 4 people found the following review helpful.  
Very incompleteBy DCTS  
Some areas of London have almost no entries. Not nearly as detailed as other NFT guides such as New York.

Whether you've called London your home for decades or just arrived last night, there's information in the Not For Tourists Guide to London that you need to know. From intimate neighborhood details to how to score tickets to the big football match, this guide will help you master this amazing city like an expert. Packed with over 100 maps and thousands of restaurants, shops, theaters, and under-the-radar spots, you won't find a better guide to London. It includes an invaluable street index and a foldout map of the London Underground and bus system.
