Aini Rajanen : Of Finnish ways before purchasing it in order to gauge whether or not it would be worth my time, and all praised Of Finnish ways:

0 of 0 people found the following review helpful. Interesting but DatedBy FozwortThe contents of this, like others in the series, are subjective and now somewhat dated. I am of Finnish ancestry and would say that some of the generalizations in this book were true when Finland was a less-developed and more homogeneous society. Now, with the internet and the addition of immigrants from other cultures, it is hard to generalize.0 of 0 people found the following review helpful. Highly RecommendBy KhayaRI bought this book years ago in my attempt to understand the Finnish culture. After many years of living in Finland, I would certainly recommend this book to anyone, who wants a glimpse at the culture and history of this country. An ease and enjoyable read that would help clarify some of the things a visitor might find strange.2 of 2 people found the following review helpful. An excellent overviewBy A CustomerI would especially recommend this book to those planning a trip to Finland. Raganen summarizes well the various aspects of Finnish culture and history. A somewhat informal tone makes "Of Finnish Ways" a fast read, but one that provides a fitting tribute to an exemplary, exceptional people, those whom the Russians call "The Unusual People."

From the PublisherFrom feasts, festivals, and folklore to the indomitable Finnish spirit, Of Finnish Ways brings this vibrant country to life. A must for anyone planning a vacation or just interested in the country and its people.
