This guide to the area of the Arnhem operation features hundreds of color photographs, detailed tours of all the monuments and battle sites, and a large color map in addition to numerous ones in the text. Besides tourists, re-enactors, gamers and readers fascinated with the drama of the Arnhem epic will find this an invaluable guide.

About the Author Major and Mrs Holt founded the first organisation to offer battlefield tours to the general public in the late 1970s. Since the 1990s they have been writing their series of guide books, incorporating all that they have learned from their experiences conducting thousands of people around battlefields. This series, designed to serve as companions for travellers, whether sitting at home or physically visiting the battlefields, includes detailed travel directions, military history, fascinating anecdotes and tourist information. The Holts share the writing of their books equally and conduct all their own research, spending many weeks on the ground as they prepare each new book or update previously published titles.
