**Map Group : Oxford Popout Map: City University Map (UK Popout Maps)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Oxford Popout Map: City University Map (UK Popout Maps):

7 of 7 people found the following review helpful. Great travelers map of Oxford UK. By G. Powell Has all the major tourists points, the colleges and the streets. Also shows the boat livery's for rentals for punting. The city of Oxford has maps supplied by Blackstone books, but on them is missing a "You are here" mark. Also they don't show the spots I wanted to see, but they do show a number of bookstores. So I was still glad to have my own map with me. The nice thing about these maps is their size. Folded, they are about the size of a postcard so are easily carried in a shirt pocket. It's a good deal and if you are visiting you'll be glad you have it.
