Chris Andrews, David Huelin : Oxford Scene: A View of the University and City before purchasing it in order to gage whether or not it would be worth my time, and all praised Oxford Scene: A View of the University and City:

A book of colour photographs showing the University City of Oxford: Colleges, buildings, life and events.

About the AuthorChris Andrews Publications started out by producing a series of postcards in Oxford and then extended to calendars and books. Then we expanded the area covered to the Cotswolds, Stratford upon Avon, Bath and the Thames Chilterns. Chris has been photographing for many years - but his real ability is not just as a photographer - it is having the vision to create interesting images that have a 'use'. An attractive picture, relevant, meaningful and immediately useable in a publication. The skills to record landscapes, seascapes, wildlife and cookery have common denominators as well as huge challenges. Keeping in mind the desire to produce natural pictures means Chris is busy behind the camera in all seasons and photographs with a minimum of interference.
