Michael Jacobs : Philip's Madrid: Architecture, History, Art (Philip's City Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Philip's Madrid: Architecture, History, Art (Philip's City Guides):

In this companion to the history, art and architecture of Madrid, seven planned routes help capture the magic of this 16th-century capital city. All the famous art galleries and museums, including the Escorial and the Prado, churches, public and private buildings, parks, royal palaces and plazas are covered as are many of the traditional gathering places such as the paseos, cafes, bars and restaurants.
