From Philip's : Philip's Street Atlas Dorset before purchasing it in order to gauge whether or not it would be worth my time, and all praised Philip's Street Atlas Dorset:

A brand new colour atlas of Dorset, giving the only comprehensive, detailed coverage of the region. No other atlas shows every street in Dorset. The mapping is based on Ordnance Survey data and gives the user complete coverage of all urban and rural areas. The mapping is at a standard scale of 3 inches to 1 mile (2 inches to 1 mile in the pocket

edition) and is complete with postcode boundaries. The atlas is ideally suited for both business and leisure use. There is a route-planning map at the front of the atlas. The main maps show every named road, street and lane clearly with through-routes highlighted. School locations are marked and emergency services, hospitals, police stations, car parks and rail and bus station locations are all featured. There is a comprehensive index of street names and postcodes including schools, industrial estates, hospitals, sports centres, etc. These are highlighted in red. Main map scale: 2 inches to 1 mile
