Savitri Devi Mukherji : Pilgrimage before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pilgrimage:

3 of 3 people found the following review helpful. Outstanding! By Richard Moore Some of Savitri Devi's best writing; second only to the indispensable *Gold in the Furnace*. I do appreciate the great pains the editor took for the sake of accuracy and integrity. 4 of 4 people found the following review helpful. why bugger off to india when you can go to snowy Germania By The God of the Gaps A big nose bulldozer desecrated the graves of Alois and Klara, and to the cheers of a docile species. Not even the vile desecration of two graves raised an eyebrow in the modern world. It is gone, the nobility, gone, the sanctity of holy ground! Some 50 years before, standing on the same spot, Savitri Devi looks at the two graves, for which she travelled far to see; a noble action by an Aryan woman; the last of the fallen. She wasn't to know that in 50 years the bulldozer, driven by an unthinking goy, will do away with this eternal scene, "The form fled, even as winds, and most like a winged dream" (Virgil, *Aeneid*). 16 of 18 people found the following review helpful. A shameful ripoff By ninthavatar This is a shameful ripoff. The publisher took the E-book available for free at the Savitri Devi Archive website and sent it to Lulu for printing. You can get the contents of this book for free at the Savitri Devi Archive. Moreover, if you want a book version, just wait until the fall of 2011, when the Savitri Devi Archive will publish a deluxe edition of *PILGRIMAGE*, which will be much better edited and typeset and printed than this pathetic piece of piracy.

Long out of print, this is Savitri Devi's highly personal narrative of her 1953 journey to the "holy places" of the Third

Reich.
