I buy the full size guide to plan my trip and bring the pocket guide with me.The maps are real handy, there are lots of hotel and restaurant suggestions and lots of useful info about all the main attractions.I highly recommend this guide.0 of 0 people found the following review helpful. italia!!!By S. hansonI enjoyed my trip immensely! this book along with other city guides i bought were at the time a completely diffent price, and amaazing for that pice at the time , would probably not buy it at the price listed now, because it was tiny print, and the maps only showed so much without needing magnifiers, over all though, if you dont mind carrying pocket magnifier and can find it at a low price, defintly take advantage!!!! quick facts and locations were very helpful as well.3 of 3 people found the following review helpful. Nice combo of map and guide bookBy Happy TravelerWe liked this handy little combo of map and guidebook. It slips easily into a pocket and was simple to use. Nice to have the guidebook aspect especially in Florence where there is so much to see that by the time we'd gotten to various sites we'd have forgotten a lot of the details in our larger guidebook. It works very well with the companion larger Florence and Tuscany Guide. Note that the print is quite small, which makes for a compact guide, but was hard for me to read on-site in dark churches. It's a very useful map, but if small print is an issue for you, bring your reading glasses.

Every visitor to Florence needs a good map and a good guidebook-now, for the first time, the two have been combined in a unique format at an unbeatable price. Perfectly sized to fit in a purse or back pocket, the Eyewitness Pocket Map Guide is a fully illustrated guide to all the major sights-plus an ingenious fold-out map so you will never feel lost. The guide also includes restaurants, pubs, shops and a mini-phrasebook. It's all you need for a perfect day out and about-and for just \$6.99.
