The book touches on the major sights organized by the city's 3 areas. It has a metro map as well as an excellent fold-out street map of the city center. This is not a book I would necessarily purchase for a longer trip, although it would be a very good supplement.0 of 0 people found the following review helpful. Helpful GuideBy DauntlessAvidityI was able to hit the ground running on my recent backpacking trip in Europe. Quick and easy to use pocket guide. Maps were very useful while traveling through Madrid. Map folds out from the book. Very good for a basic short trip.

Every visitor to Madrid needs a good map and a good guidebook-now, for the first time, the two have been combined in a unique format at an unbeatable price. Perfectly sized to fit in a purse or back pocket, the Eyewitness Pocket Map Guide is a fully illustrated guide to all the major sights-plus an ingenious fold-out map so you will never feel lost. The guide also includes restaurants, pubs, shops and a mini-phrasebook. It's all you need for a perfect day out and about-and for just \$6.99.
