This guide is the perfect size for what we need - info on all the main sites, maps, travel information...without having to pay for a more expensive / comprehensive guide designed for longer visits. It's still packed with information...it even has a small phrasebook in the back. It's smaller than I expected, which is a good thing. They've really packed a lot of information into a totally portable guide...dining, street maps - it's really adorable, actually! I was hesitant to order because of the previous review that the text was too tiny to read. For me it's fine; I don't find the text size all that different from the regular Eyewitness guides. And you can't beat the price! Since we are going to several cities in Europe, I was even able to combine 4 books for the price of 3 with 's promotion.1 of 1 people found the following review helpful. All in one travel guide of RomeBy K. ArgastLots of pictures. Great concise descriptions. Maps. Small glossary of Italian. Organizes everything in a clear way. Perfect! Thought I was going to get another larger version of a travel guide for Rome but not anymore. It's all I need. If I do find something that it's missing I can look it up on the internet. The only thing that might be hard for some people is the small type. I have 20/20 vision and can read it perfectly. No problem whatsoever. But if you have vision problems you might find it somewhat hard to read. Its about the size of a Hershey Bar and jammed packed with information if that gives you an idea. I love it though!0 of 0 people found the following review helpful. italia!By S. hansonI enjoyed my trip immensely! this book along with other city guides i bought were at the time a completely diffent price, and amaazing for that pice at the time , would probably not buy it at the price listed now(50) because it was tiny print, and the maps only showed so much without needing magnifiers, over all though, if you dont mind carrying pocket magnifier and can find it at a low price, defintly take advantage!!!!

Every visitor to Rome needs a good map and a good guidebook-now, for the first time, the two have been combined in a unique format at an unbeatable price. Perfectly sized to fit in a purse or back pocket, the Eyewitness Pocket Map Guide is a fully illustrated guide to all the major sights-plus an ingenious fold-out map so you will never feel lost. The guide also includes restaurants, pubs, shops and a mini-phrasebook. It's all you need for a perfect day out and about-and for just \$6.99.

Light enough to slip into your pocket, but still contains all the crucial info Independent on Sunday
