This folds open into a huge map with lots of detail. Has an insert map of the Metro (subway system) plus includes all the Metro stops on the big detailed map also so it is easy to find the stops. It also has maps of the area around Madrid and a regional map for the Madrid area. If you have not been to Madrid before, I highly recommend that you have a good map like this one. It is made with very good quality paper and we folded it over over in many different ways without it falling apart. We were very glad that we ordered this map from before we left. We studied it before our trip to get a feel for where things were and that really helped a lot when we got there.

The Hammond International Series of travel maps feature state-of-the-art digitized mapmaking to ensure an unparalleled degree of accuracy. All city maps feature regional insets and all country maps feature city insets. Both maps and atlases are printed on high quality paper, with sturdy covers for increased durability. Each map also contains a comprehensive index.
