I do most planning on-line for all trips. However, the country series of DK travel books are a must for me. They are very comprehensive; have four-color printing with heavy quality paper and lots of photos; and are small enough to pack in the carry-on bag. The details they provide on the cultural and historical aspect of your destination is without comparison. My husband and I both love them and read every relevant page before leaving on the trip. They are the "can't leave home without it" kind of travel book. Well worth the splurge!

I bought this when traveling to Krakow and Gdansk. It has good pictures and information on major attractions. But, in Gdansk the information was limited. The reviews of restaurants were also not very detailed. I also got Rick Steve's guide to Warsaw, Krakow, and Gdansk. The information was much more detailed and opinionated and it gave great ideas for walking tours and restaurants.

LOVED IT. I know people in Poland and they told me to visit many of the places the book did. It shipped fast and I love all the helpful icons and explanations. It's small and can fit in a small purse/backpack. The restaurant recommendations were spot-on. I will re-use this when I go back!
