From Mairs Geographischer Verlag, Kurt Mair : Poland GeoCenter Euro Map (GeoCenter Euro Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Poland GeoCenter Euro Map (GeoCenter Euro Maps):

Part of the renowned Geocenter Euro Map series, this updated map of Poland is both informative and easy-to-use. This cartography is ideal for travelling within the country and the city plans of Breslau, Danzig, Krakow, Lodz, Stettin and Warsaw are ideal for day-to-day navigation around these key cities. This updated cartography now features grid references in the margin to aid quicker orientation. Additional colour changes to the mapping make transport networks clearer than before. With a scale of 1:800 Thousand and a legend in 8 languages, this is a comprehensive and indispensable road map. Tourist information, places of interest and a comprehensive index booklet are all featured. Information is provided on hotels, restaurants, museums, theatres, parks and gardens, with tourist attractions clearly indicated and public transport systems marked.
