before purchasing it in order to gage whether or not it would be worth my time, and all praised Political Pilgrims: Travels of Western Intellectuals to the Soviet Union, China and Cuba: Travels of Western Intellectuals to the Soviet Union, China and Cuba, 1928-78 by Paul Hollander (1990-11-19):

Sobering Inditment of Western IntellectualsBy DennisWestern intellectuals like to think of themselves as men and women of reason who are better than common people. Paul Hollander shows how easily intellectuals have been fooled into completely false analysis of totalitarian regimes. As he has documented the intellectuals are as gullible or more gullible than the average person since their judgment is based mostly on their own emotional longs which completely overwhelm their reason.12 of 12 people found the following review helpful. Reality versus RomaticismBy D. W. MacKenzieHollander hits an important nail on its head. Many

members of the intellectual left have a horrible track record of either excusing or turning a blind eye to the brutality of socialist dictators. As such, many twentieth century leftists served as apologists for evil socialist dictators. Of course, these same people have no difficulty finding fault with the US and UK. No problem in the West is too small to warrant condemnation in their eyes. The sad truth is that the vision of an egalitarian society has been romanticized and popularized. Even today there are some who defend and even promote the USSR. Hollander counters this nonsense with evidence. Unfortunately, there are still some ideologues to whom evidence means nothing. We need more scholars like Hollander. 1 of 1 people found the following review helpful. How Did Such Smart People Go So Wrong? By John Desmond Hollander does a fine job of describing the silliness of Western intellectuals and their infatuation with the Soviet and other communist systems. The only shortcoming was possibly the author's effort to be clinical and objective prevents him from driving home the point quite as firmly as he might have.
