**Enrico Massetti : Portofino and The Riviera (Weeklong car trips in Italy) (Volume 8)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Portofino and The Riviera (Weeklong car trips in Italy) (Volume 8):

2 of 3 people found the following review helpful. An EmbarrassmentBy Nancy BAn embarrassment...both to the author for writing this and for selling it. This is not a book. It is a pamphlet. It is a 37 page pamphlet printed on cheap paper stock with only black and white photos. The author and have the nerve to price this at \$17. DK Eyewitness sells

a book on the Italian Riviera for \$20. The DK Eyewitness book is 211 pages packed with information on glossy paper with beautiful color photographs. I am attaching a page from the interior of the "book" so you get an idea of how little information is included and also the back page of the "book"....so you can count all the grammatical errors.

“A little village stretching like an arch of the moon around a quiet basin. Never have I felt the way I did when I walked into that green indefiniteness, with such a sense of peace and fulfilment”. From *Vie Errante* by Guy de Maupassant It was Pliny who first described this stunning natural area and named it ‘Portus Delphini’. This over time was corrupted to Portofino. Portofino is a typical fisherman village of the Ligurian Riviera which has become one of the most renowned tourist spots in all of Italy, best known in all the world for its tall colored houses situated in a semicircular formation around the small port and piazza. Portofino and the Tigullio Gulf are symbols representing Italy throughout the world. The coast is a sequence of fashionable resorts with their marinas, pastel-colored houses, first-rate sports facilities and the seductive atmosphere of the *Dolce Vita*. But perhaps the most striking thing for the traveler is the beauty of the seascapes, with some of the most celebrated views in Italy, suspended between the intense blue of the sea and the green mountains. The area of Portofino boasts an exceptional natural heritage that includes traces of rural and nautical civilizations, splendid religious architecture, and clusters of rural houses surrounded by tiny orchards and sections of land planted with grape vines and olive trees. This is a guide to a visit to Portofino and the towns of nearby Riviera del Levante, from Sestri Levante to Genoa, including Sestri Levante, Santa Margherita Ligure, Camogli, San Fruttuoso and the villages of the Cinque Terre, with the trails between them. There are extensive descriptions and photos of the attractions. It contains many reviews for the best recommended restaurants that are at the location described.

About the Author Enrico Massetti was born in Milano. Now he lives in Washington DC, USA, but he regularly visit his hometown, and enjoys going around all the places in his home country. Enrico can be reached at [enricomassetti@msn.com](mailto:enricomassetti@msn.com).
