**John Morrison : Portrait of Leeds** before purchasing it in order to gage whether or not it would be worth my time, and all praised Portrait of Leeds:

Like many great cities, Leeds has undergone periods of expansion and degeneration and the story of the city's growth and industrial decline can be read in the renovated textile mills, terraced housing and impressive Victorian town hall. This photographic essay demonstrates how Leeds's past contributes to the buoyant modern city with views of its buildings from Anglo-Saxon churches to modern offices, redeveloped industrial areas and post-war concrete.
