From Michelin Editions des Voyages : Portugal Norte (Michelin Regional Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Portugal Norte (Michelin Regional Maps):

By forumIt's a Michelin map, so of course it's good in many ways. The main issue is that in Portugal the roads have, simultaneously, different numbers - such as an A designation, an E designation, and an I designation. The map primarily uses A designations; road signs often use one or the other of the other two designations.

By Wuthering HeightsWe used it without GPS in the countryside of Aregos outside Porto town and we had no problem whatsoever. We could not have done the drive without it since we are foreigners w/o speaking their language and first time being there.
